

The College Board has introduced the new cycle requirement for participants in the Specialist CPD Program to **complete one approved cultural competence activity**. The introduction of this requirement reflects the commitment of ACEM to the integration of cultural competency through avenues such as the ACEM Reconciliation Action Plan, the Expert Advisory Group (EAG) on Discrimination Action Plan and the Discrimination, Bullying and Sexual Harassment (DBSH) Action Plan.

A traffic-light within [Monitor My Progress](#) in the *My ACEM* portal indicates your progress towards meeting this requirement.

Approved Cultural Competence Activities for CPD

- [ACEM Assessing Cultural Competence Course](#) (complete all three modules)

The CPD record of all members who completed the Assessing Cultural Competence Course before 1 July 2018 have had their CPD records updated, in recognition of the new cultural competency requirement having already been met.

- Respecting the Difference – HETI online module
- Aboriginal Cultural Awareness Program (ACAP) - NT Department of Health (DOH) and Top End Health Services (TEHS)
- WA DoH Aboriginal Cultural eLearning Course
- Introduction to Aboriginal & Torres Strait Islander Cultural Practice - Townsville Hospital & Health Service
- AIDA 2018 Vision into Action
- Foundation Course in Cultural Competence (Maori)
- Gold Coast Health Cultural Competence Program
- Share the Pride – Reconciliation Australia

These activities have been added to the My CPD activity library and will automatically offset the mandatory CPD requirement once selected from the library and recorded. If you have already completed and recorded one of these activities please contact the CPD Unit cpd@acem.org.au.

Additional activities such as employer and state-mandated learning will be considered for this requirement in the coming months.
